**APPROVAL OF 2025 OUTPUT BASED BUDGET – PETAUKETOWN COUNCIL**

The captioned subject refers.

This serves to inform you that your institution's 2025 budget, totaling **K154,658,000.00** has been **approved** by the Hon. Minister of Local Government and Rural Development. The Ministry wishes to thank you and your team for the effort put forth in developing the budget. Particularly, you are commended because your current fund allocation seems to reflect the priorities outlined in the 2025 “strategy” you set, focusing on the key Programmes as mandated by law. Further, your balanced budget reflects thoughtful planning and prudent resource management and strategic foresight.

Nevertheless, the following observation was made regarding your budget which you are directed to rectify:

- Some outputs were not **SMART** and not aligning with indicators and in some cases your indicators were clearly misleading and unrealistic as they have no history to compare with.

Following this approval and after rectification of the observation, you are directed to upload the **PDF Yellow Book format** of your **approved 2025 budget on your website by 15th January 2025**.

**AC/75/03/24: ADOPTION OF THE AGENDA** – On a proposal by Councillor Lovemore Daka duly seconded by Councillor Misheck Phiri the agenda was adopted as presented.

**AC/76/03/24: CHAIRPERSON'S OPENING REMARKS** – The Committee Chairperson welcomed all members present and urged everyone to participate freely.

**AC/77/03/24: DECLARATION OF INTEREST** – No declarations of interest were received from members.

**SCOPE** – The Internal auditor reported that the scope of the audit was limited to the following:

- Cashbooks and Bank reconciliations statements for all council accounts
- The DCCs and imprest retirements for all accounts
- Payment vouchers for all council accounts including Nyika Motel
- Bank statements for all accounts
- Fuel utilization records
- Project ledgers for CDF and Capital Projects
- A list of all outstanding creditors both external and internal (Salary arrears leave travel benefits, retirement benefits and settling in allowances)
- Receipt and payment for fourth quarter
- Fire Safety, Assets and Equipment Maintenance

**OBJECTIVES** – To establish whether:

- Imprest given within the period under review was retired
- Payment vouchers were adequately supported
- Payment vouchers were filed and secured
- Revenue collected at Nyika Motel is banked the following day after receipt
- Fuel utilization records were updated
- CDF and Capital ledgers were updated
- List of all outstanding creditors both external and internal were updated
- Receipts and payment for fourth quarter were updated
- Cashbooks and Bank reconciliations statements for all council accounts are maintained
- Register for fire assets and equipment are maintained and updated

**DISCLAIMER** – The principal safeguard against fraud, misstatement and irregularities was an effective system of internal control. It must, however, be recognised that there were inherent limitations in any system of internal control - including management override, human error and circumventions through collusion. The prevention and detection of fraud was therefore management's responsibility.

#### **AUDIT FINDINGS**

**AC/78/03/24: PAYMENT VOUCHERS** – Section 59 (1) of the Public Finance Management Act of 2018 provides that a controlling officer shall ensure that proper and adequate accounting records are maintained, and that all payments are properly authorised and supported by adequate documentation. Contrary to the above, audit observed that out of the total payment vouchers reviewed, a number were not adequately supported with relevant documents (Schedule 1).

**ROOT CAUSE:** Failure by officers to attach all relevant supporting documents.

**POTENTIAL IMPACT RISK:** Payment vouchers without adequate supporting documents may lead to fraudulent activities and misuse of public funds.

**RECOMMENDATIONS:** Management should ensure that all payment vouchers are adequately supported with relevant documents before payments are made.

**MANAGEMENT COMMENTS:** The missing documents were availed to audit for verification.

**MANAGEMENT ACTION PLAN:** Management would ensure all payment vouchers are adequately supported before payments.

| #Agreed management action     | Position/designation directly responsible for implementation | Implementation date |
|-------------------------------|--------------------------------------------------------------|---------------------|
| Review Payment vouchers daily | SAA                                                          | Daily               |

**RESOLVED THAT:** Management action plan to review Payment vouchers daily implemented.

**AC/79/03/24: UNRETIRED IMPREST MANAGEMENT CONTROL** – Section 104 (1) of the Public Finance Management Regulations states that Special or accountable imprest shall be retired immediately after the purpose for which the imprest was issued is fulfilled. Contrary to the above, 24 payment vouchers revealed imprest issued amounting to K54,885.00 and only 4 payments amounting to K10,493 were retired in line with the financial regulations during the period under review (Schedule 2).

**ROOT CAUSE:** Failure by imprest holders to retire imprest immediately after the purpose for which the imprest was issued is achieved.

**POTENTIAL IMPACT RISK:** Funds might not be utilised for the intended purpose, which might lead to the wastage of public funds.

**RECOMMENDATIONS:** Management should ensure that imprest issued to officers was retired promptly following the fulfilment of the intended purpose. Further, all documents for the unretired imprest should be subjected to audit verification.

**MANAGEMENT COMMENTS:** A total sum of K51,285.00 was retired and retirement forms were ready for verification. The balance of K3,600.00 would be recovered from the imprest holders through the payroll in March. Letters had since been written to the defaulters.

**MANAGEMENT ACTION PLAN:** Management would ensure all imprest were retired within 48 hours after the use for which it was issued is fulfilled. Failure to retire the imprest within the stipulated time frame will prompt a deduction from

the imprest holder's salary.

| #Agreed management action                                            | Position/designation directly responsible for implementation | Implementation date |
|----------------------------------------------------------------------|--------------------------------------------------------------|---------------------|
| Creation of imprest registers and recovery through payroll deduction | SAA                                                          | weekly              |

A total of 22 imprest holders amounting to K51,285.00 were availed to audit for verifications and cleared. However, K3,600.00 was not availed and remains outstanding.

**RESOLVED THAT:** The agreed Management action plans of Creation of imprest registers and recovery through payroll deduction be **APPROVED**.

#### **AC/80/03/24: CASH BOOK**

**MANAGEMENT CONTROL** – Section 7, 8 (d), (m), (f) of the Public Finance Management Act General regulation of 2020, the head of an accounting unit shall ensure prudent and accountable management of financial resources:

(d) Ensure collection and receipt of public monies is done in a timely manner.

(m) Ensure books of accounting are correctly posted and regularly updated.

(f) Undertake reconciliation of accounts held under that accounting officer's charge at least once in a month and not later than the 15th of the following month.

**FINDINGS** – 11 of 14 cash books maintained at the institution were updated and reconciled:

1. D Wash Account
2. Capital account
3. Salaries Account
4. District Planning Account
5. Feeder Roads Account
6. Markets Account
7. Kaumbwe Account
8. Revolving Fund Kaumbwe Account
9. ECZ Account
10. Development Account
11. District Account

Three cashbooks had not been updated and reconciled: Sector Grant Account, Petauke Revolving Account, Petauke Central Account.

**ROOT CAUSE:** Failure by officers charged with responsibility to update and reconcile cashbooks not later than the 15th of the following month as prescribed in the Public Financial Regulations.

**POTENTIAL RISKS:** The institution risks not being able to detect errors and fraud. The absence of cashbooks and regular bank reconciliation makes it easier for fraudulent activities to occur without detection. Failing to reconcile cashbooks with bank statements could allow discrepancies such as unauthorized withdrawals or errors to go unnoticed, leading to missing or misallocation of funds.

#### **RECOMMENDATION:**

1. Management should ensure adherence to the guidelines of the Public Finance Management Act General regulations of 2020.
2. Supervision be enhanced to ensure cashbooks and bank reconciliation statements were consistently updated and properly maintained, with adequate supporting documentation.

**MANAGEMENT COMMENTS:** Cash books were updated and reconciled accordingly and were availed for audit verification.

**MANAGEMENT ACTION PLANS:** Management would ensure Cashbooks were updated daily and reconciled monthly.

| #Agreed management action                                 | Position/designation directly responsible for implementation | Implementation date |
|-----------------------------------------------------------|--------------------------------------------------------------|---------------------|
| Update cashbooks, Reconcile Cash book with Bank statement | CA/AA/SAA/D/A                                                | Daily monthly       |

**INTERNAL AUDIT COMMENT:** All 14 cash books were updated and reconciled. Management should ensure cashbooks were updated daily and bank reconciliations done at least once a month and not later than 15th of the following month as

prescribed.

The matter was **NOTED**.

**AC/81/03/24: FIRE SAFETY, ASSETS AND EQUIPMENT MAINTENANCE** – Section 33 of the Public Finance Management Act of 2018 provides that a controlling officer shall ensure that all assets and equipment are properly maintained and safeguarded. Contrary to the above, the fire section had not been maintaining and servicing its equipment:

1. Scania Fire Truck
2. Toyota Ace Truck
3. Isuzu Fire Truck
4. Breathing Apparatus
5. Fire Extinguisher
6. Deep Freezer
7. LG Plasma TV

There was need to seek Authority from the Ministry to have the Fire Truck serviced from other sources which may be cheaper than Hazida. Other equipment were assessed and requests for service parts were procured.

**MANAGEMENT ACTION PLANS:** Management was making efforts to secure funds to repair and service the cited equipment in good time. Provision was made in the 2025 budget to procure a computer for the section to improve record keeping and management at the fire section.

| #Agreed action management                                                                                    | Position/designation directly responsible for implementation | Implementation date              |
|--------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------|----------------------------------|
| Secure Funds for servicing; open a fire account through which 50% income from fire certificates will be kept | DF/DES                                                       | Before end of first Quarter 2025 |

**INTERNAL AUDIT COMMENT:** Audit would make follow ups and conduct a review to ensure implementation of the management action plan. Improvements were needed in the areas of equipment maintenance and tracking. Addressing these issues would enhance the fire station's compliance with regulations and improve overall operational efficiency.

The matter was **NOTED**.

**CLOSING REMARKS** – The Committee Chairperson thanked all members present and urged members to improve on time management.

There being no other business to transact on the agenda the meeting was declared closed after a prayer by Councillor Kelvin Phiri at 11:50 hours.

**Signed this ... day of ... 2025**
